

WindEnergy Hamburg 2022

Sept. 27–30, 2022
Hamburg, Germany

USA PAVILION BENEFITS

In 2018, WindEnergy Hamburg was the world's largest trade show for the global wind power industry. More than 35,000 visitors and buyers came to Hamburg from 100 nations to see world-class technology and services showcased by 1,482 exhibitors from 40 nations. For 2022, WindEnergy Hamburg unites major global onshore and offshore wind power players under one roof. And there couldn't be a better location than Germany for a trade fair in this sector. A pioneer in implementing renewable energies, and the first country to promote a real energy revolution, Germany is the perfect host for this international export event.

The concept of WindEnergy Hamburg differs from the concepts of other wind power events in that it includes both onshore and offshore segments of the market. The event benefits from the timing of **SMM, the world's largest shipbuilding trade fair**, which occurs in the same location two weeks before WindEnergy Hamburg. Shipyards, port facilities, and many other manufacturers and service companies that support offshore wind power development are invited to leave their SMM exhibits standing for WindEnergy Hamburg.

USA Pavilion benefits:

- A turnkey, hard-wall booth completely ready to use. Simply bring your samples, graphics, and brochures. You avoid the costs and hassles of shipping and installing your exhibit system.
- An option is to have your graphics printed in Hamburg and mounted in your booth.
- An exhibit package that includes walls, furnishings, carpeting, spotlights, company sign, and electricity.
- A networking reception for USA exhibitors and key industry customers and contacts (assuming this is allowed under show health rules).
- Beer, wine, water, coffee, and soft drinks for USA Pavilion exhibitors and their guests, served during the entire WindEnergy Hamburg show by our hostess.
- One free exhibitor pass for each four square meters of exhibit space. Additional passes are billed at cost.
